CONTENTS

VOL. 26, NO. 1, AUGUST 1991

1 *Y. Z. Yacobi, R. F. C. Mantoura and C. A. Llewellyn:* The distribution of chlorophylls, carotenoids and their breakdown products in Lake Kinneret (Israel) sediments

11 *A. W. Groeger, M. D. Schram and G. R. Marzolf:* Influence of food quality on growth and reproduction in *Daphnia*

21 *S. A. Blenkinsopp, P. A. Gabbott, C. Freeman and M. A. Lock:* Seasonal trends in river biofilm storage products and electron transport system activity

35 *M. Jones, C. Folt and S. Guarda:* Characterizing individual, population and community effects of sublethal levels of aquatic toxicants: an experimental case study using *Daphnia*

45 *D. M. Fiebig and M. A. Lock:* Immobilization of dissolved organic matter from groundwater discharging through the stream bed

57 *J. Urabe:* Effect of food concentration on the carbon balance of *Bosmina longirostris* (Crustacea: Cladocera)

69 *J. A. H. Benzie:* Other environmental factors affect the size of crests developed by *Daphnia carinata* (Cladocera: Daphniidae) in response to notonectid predators

77 *S. A. Wickham and J. J. Gilbert:* Relative vulnerabilities of natural rotifer and ciliate communities to cladocerans: laboratory and field experiments

87 *B. J. Hann:* Invertebrate grazer–periphyton interactions in a eutrophic marsh pond

97 *H. Chergui and E. Pattee:* An experimental study of the breakdown of submerged leaves by hyphomycetes and invertebrates in Morocco

111 *P. V. McCormick and J. Cairns, Jr.* Effects of micrometazoa on the protistan assemblage of a littoral food web

121 *N. S. Weatherley, E. W. Campbell-Lendrum and S. J. Ormerod:* The growth of brown trout (*Salmo trutta*) in mild winters and summer droughts in upland Wales: model validation and preliminary predictions

133 *S. E. B. Weisner:* Within-lake patterns in depth penetration of emergent vegetation

143 **Book Reviews**

VOL. 26, NO. 2, OCTOBER 1991

149 *D. Pont, A. J. Crivelli and F. Guillot:* The impact of three-spined sticklebacks on the zooplankton of a previously fish-free pool

165 *G. Kjellberg, D. O. Hessen and J. P. Nilssen:* Life history, growth and production of *Mysis relicta* in the large, fiord-type Lake Mjøsa, Norway

175 *T. V. Madsen and S. C. Maberly:* Diurnal variation in light and carbon limitation of photosynthesis by two species of submerged freshwater macrophyte with a differential ability to use bicarbonate

189 *T. M. Iversen, J. Thorup, K. Kjeldsen and N. Thyssen:* Spring bloom development of microbenthic algae and associated invertebrates in two reaches of a small lowland stream with contrasting sediment stability

199 *G. Grelsson and C. Nilsson:* Vegetation and seed-bank relationships on a lakeshore

209 *P. I. Boon and B. K. Sorrell:* Biogeochemistry of billabong sediments. I. The effect of macrophytes

227 *B. Statzner, F. Kohmann and A. G. Hildrew:* Calibration of FST-hemispheres against bottom shear stress in a laboratory flume

233 *J. D. Madsen, C. F. Hartleb and C. W. Boylen:* Photosynthetic characteristics of *Myriophyllum spicatum* and six submersed aquatic macrophyte species native to Lake George, New York

241 *Ph. Vervier and J. Gilbert:* Dynamics of surface water/groundwater ecotones in a karstic aquifer

251 *S. S. Dixit, A. S. Dixit and J. P. Smol:* Multivariable environmental inferences based on diatom assemblages from Sudbury (Canada) lakes

267 *A. J. Boulton, S. E. Stibbe, N. B. Grimm and S. G. Fisher:* Invertebrate recolonization of small patches of defaunated hyporheic sediments in a Sonoran Desert stream

279 *R. J. Stevenson and C. G. Peterson:* Emigration and immigration can be important determinants of benthic diatom assemblages in streams

295 *B. J. Downes and P. S. Lake:* Different colonization patterns of two closely related stream insects (*Austrosimulium* spp.) following disturbance

307 *B. Malmqvist, S. Rundle, C. Brönmark and A. Erlandsson:* Invertebrate colonization of a new, man-made stream in southern Sweden

325 *G. J. C. Underwood:* Growth enhancement of the macrophyte *Ceratophyllum demersum* in the presence of the snail *Planorbis planorbis:* the effect of grazing and chemical conditioning

VOL. 26, NO. 3, DECEMBER 1991

335 *D. J. D'Angelo and J. R. Webster:* Phosphorous retention in streams draining catchments in the southern Appalachian Mountains

347 *Jari Kouki*: The effect of the water-lily beetle, *Galerucella nymphaeae*, on leaf production and longevity of the yellow water-lily *Nuphar lutea*

355 *D. G. Wallen:* The influence of summer/winter conditions of temperature and irradiance on diel oscillations in photosynthesis by *Fragilaria crotonensis*

365 *Agnès Bardonnet, Philippe Gaudin and Henri Persat:* Microhabitats and diel downstream migration of young grayling (*Thymallus thymallus* L.)

377 *G. Bauer, S. Hochwald and W. Silkenat:* Spatial distribution of freshwater mussels: the role of host fish and metabolic rate

387 *Mark O. Gessner:* Differences in processing dynamics of fresh and dried leaf litter in a stream ecosystem

399 *Alastair M. Suren:* Bryophytes as invertebrate habitat in two New Zealand alpine streams

419 *Takayuki Hanazato:* Pesticides as chemical agents inducing helmet formation in *Daphnia ambigua*

425 *Göran Englund:* Asymmetric resource competition in a filter-feeding stream insect (*Hydropsyche siltalai*; Tricoptera)

433 *C. Guisande, J. Toja and N. Mazuelos:* The effect of food on protein content in rotifer and cladoceran species: a field correlational study

439 *S. D. Rundle and S. J. Ormerod:* The influence of chemistry and habitat features on the microcrustacea of some upland Welsh streams

453 *Christine M. Happey-Wood:* Temporal and spatial patterns in the distribution and abundance of pico, nano and microphytoplankton in an upland lake

481 *G. Sawula and E. Martins:* Major ion chemistry of the lower Boro River, Okavango Delta, Botswana

495 *C. Prahl, E. Jeppesen, K. Sand-Jensen and T. Moth-Iversen:* A continuous-flow system for measuring *in vitro* oxygen and nitrogen metabolism in separated stream communities

507 *W. Admiraal and G. M. J. Tubbing:* Extracellular enzyme activity associated with suspended matter in the River Rhine

519 *D. H. Abbey and W. C. MacKay:* Predicting the growth of age-0 yellow perch populations from measures of whole-lake productivity

527 **Opinion**
D. S. Glazier: The fauna of North American temperate cold springs: patterns and hypotheses

543 **Book Reviews**

550 **Erratum**

551 **Author Index to Volume 26**
